

Shades  
For Comfort

رويال بلايندز  
Royal Blinds

# Introduction

A Member of Dubai Chamber of Commerce and Abu Dhabi Chamber of Commerce, Royal Blinds is one of the leading manufacturers and suppliers of premier quality blinds, external shades and curtains across GCC and MENA regions. Over the years we have earned the reputation as the “One Stop Centre” for innovative, immaculate Internal and External Shades design, manufacturing and installation. We also manufacture and supply easy-to-fix blinds and shades.

Established in 1989 in Dubai, UAE, as a pioneering entity wholly owned by Al Jallaf Family, Royal Blinds has grown to become one of the preferred suppliers to many of the region’s leading property development companies and contractors. We also provide regular consultations to high profile architecture and design firms. With 124,800 square feet production unit at the Dubai Al Quoz industrial area, we also have a branch in Abu Dhabi and dedicated business channels in other Gulf States.

Royal Blinds is always committed to deliver above client’s expectation; be it a large-scale project or one-off bespoke item, we guarantee to deliver on time and at a competitive price.

As a mark of consistent excellence Royal Blinds is ISO-QMS-9001, ISO-EMS-14001, and OHSAS 18001 certified.

## Internal Shades

We design and manufacture every major style of blinds which include Roller Blinds, Venetian Blinds, Wooden Blinds, Venetian Blinds, Vertical Blinds, Roman Blinds, and Zebra Blinds. These are available in both motorised and manual versions.

Over the years we have seen a rising demand for blinds not only for commercial purpose but also for residential use as well. With beautiful designs, quality fabric and reliable technologies, our products elevate every interior and serve to enhance your comfort.

Easy & Elegant

## Roller Blinds

One of the most preferred blinds for both commercial and residential spaces. Our manufacturing process does not involve use of adhesives or sewing to produce clean and professionally finished blinds.

## Venetian Blinds

Custom crafted Venetian Blinds, in a variety of exciting colours, are engineered with durability to give dependable and longer trouble-free performance. Our raw materials and motors are imported from USA and Europe.

The Horizontals

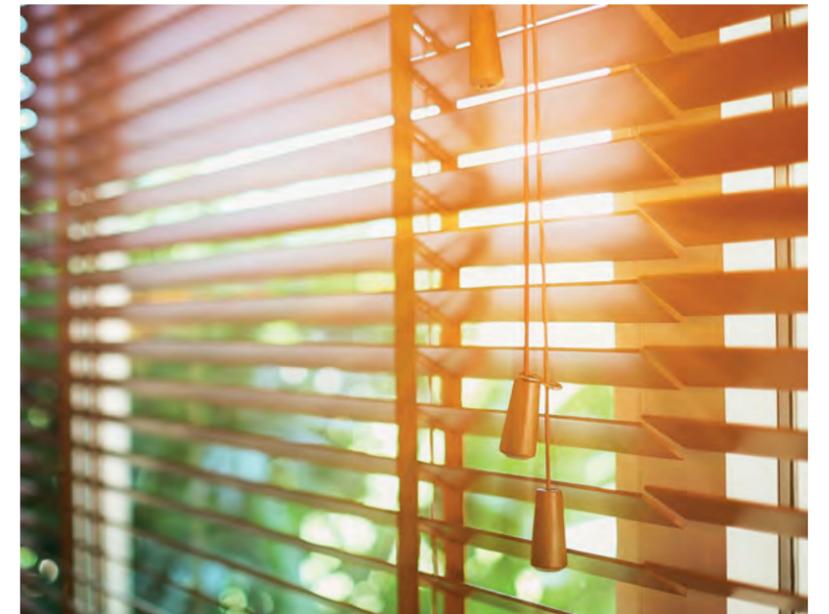

Natural Harmony

## Wooden Blinds

With the natural elegance and classic quality, wood has a great visual appeal and warmth. Our wooden blinds are available in both 25mm and 50mm slate widths. They are available in a range of traditional light and dark wood tones. The stains highlight the natural grain patterns of our wood with a lustrous finish.

## Vertical Blinds

Royal Blinds manufactures the most sophisticated and versatile vertical blinds. They are truly advanced in quality, and are available in luxurious fabrics: cotton and polyester; fibre glass; vinyl. Royal vertical blinds are affordable and sustain their quality throughout the years.

Sophisticated  
Designs

Beautiful Windows

## Roman Blinds

Royal Blinds introduced the Functional Roman Blinds to the UAE market. The system of blinds is imported from Europe. Royal Roman Blinds give your home an elegant and refined finish.

## Zebra Roller Blinds

Beautifully diffused light and the room darkening effect keep your private space protected. With various colours and sizes, our sheer Zebra shades are the perfect choice for your living room, bedroom, and study.

Contemporary  
Look

Chic Modernity

## Curtains

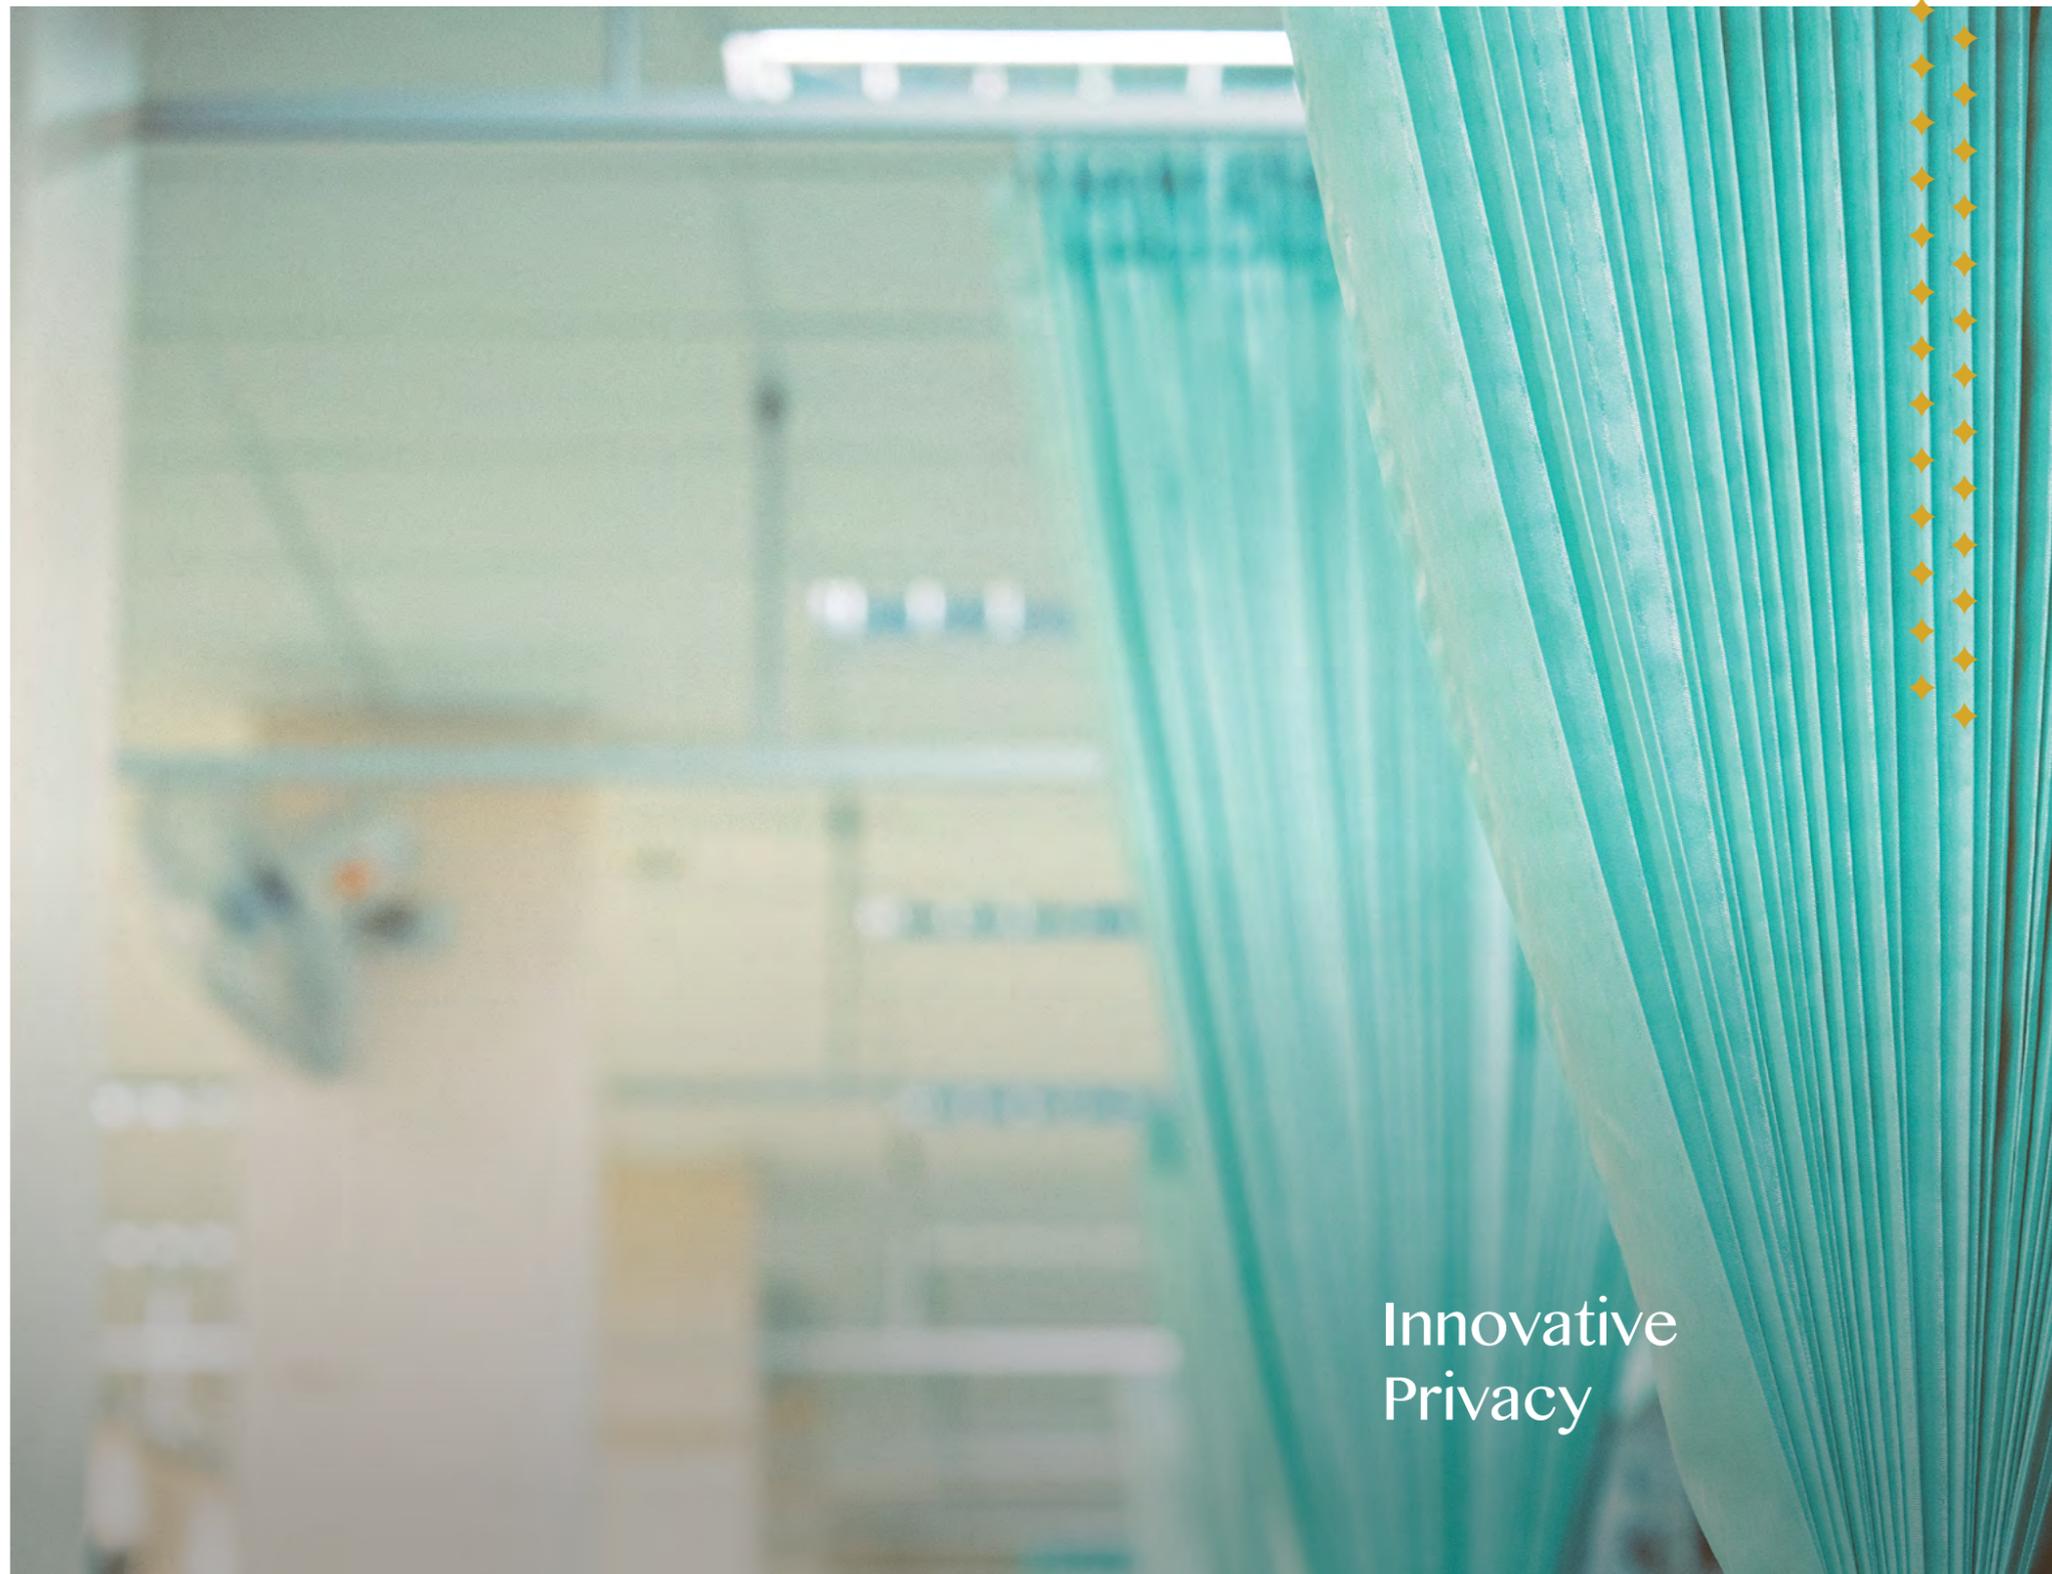

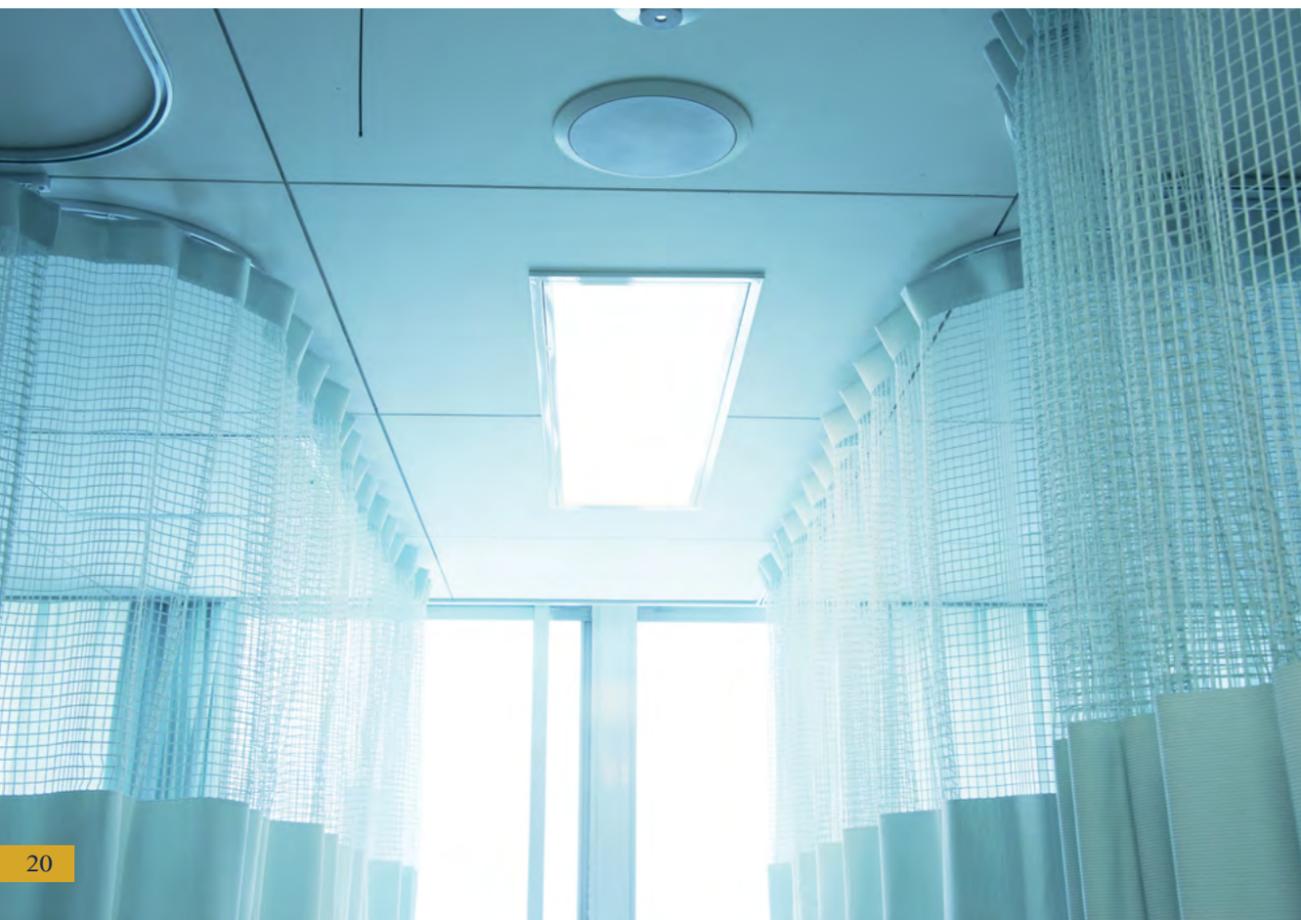

Like all aspects of interior design, the curtains play their part in the overall aesthetics of a given room and the underlying composition of your home in general.

Royal Blinds curtains are tailor-made and available in manual and motorised options for various projects such as hotels, hospitals, corporate, and residential. The curtains have extruded aluminum tracks and unique featured fabrics of high quality.

## Cubicle Curtains

Antibacterial Cubical Curtains, or privacy curtains, are ideal for hospital patient rooms, clinics, nursing homes, educational and other facility environments.

Innovative  
Privacy

# External Shades

Royal Blinds have a wide variety of shade solutions that have been designed to provide protection from the elements, utilizing the versatile medium of structural fabrics. Our diverse range of products enables us to provide you with not just an aesthetically pleasing product but also a product that is safe and functional.

Our blinds have qualified fabric structures. Expertise in planning, design, engineering, construction, and installations means that we guarantee professional management of your project from start to finish.

Using the latest structural and finite element analysis software such as Forten4000, specialized high quality fabrics and hardware, modern patenting systems and outstanding staff, we specialize in the high end architectural membrane markets.

We specialise in the design, manufacture and installation of custom made tension membrane shade sails and structure for commercial and residential application such as schools, playgrounds, swimming pools, sporting venues, shop facades, shopping centres, car parking, clubs, hotels, walkways, villas, patio, etc.

Being one of the few in the country with the skills to fabricate these specialty products, we have gained a reputation within our industry for our ability to supply first class structures in quality second to none. We lead the way by constantly researching and developing our structure to suit our clients' needs and design.

Aside from shade sails and tensile shade structures, we also specialize in commercial style awnings which are fully wind rated. We supply awnings and retractable shades that are architecturally designed, technologically advanced, simple to use, and entirely made in Italy with international certification and patents. These are designer awnings with innovative style and technique, fine furnishing objects to admire visually and functionally, able to match both with classic and modern architecture.

Along with being solution providers for external shade products, we promote a wide range of high quality aluminum roller shutter covers for doors and windows in three systems: electric motorized system, manual system, and electric motorized with a manual control system.

You Decide  
the Spotlight

## Gennius – Retractable Shade

Aluminum shading structure with retractable  
cloth that is tensioned when completely open  
and folds up through a system of sliding cross  
beams, trolleys and guides. Wind resistance is  
guaranteed up to class 6 as per UNI PR EN13561.  
The optional anti-drop system can be installed to  
obtain a complete protection from the rain.

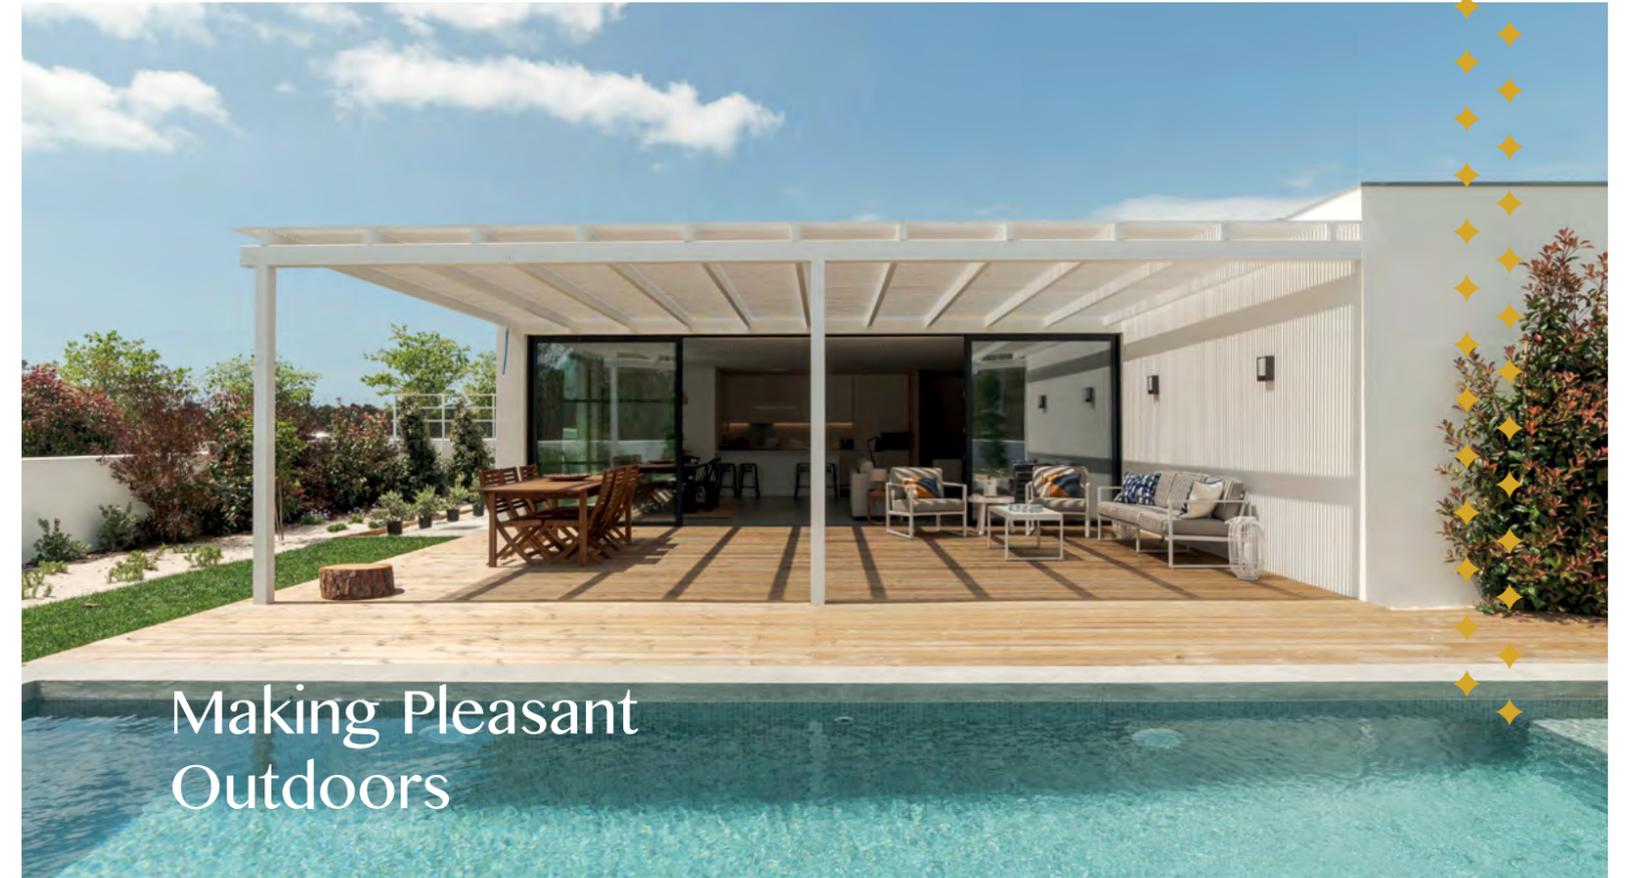

Setting  
the Right Mood

## Retractable Sails

Royal Blinds manufactures the most sophisticated and versatile vertical blinds. They are truly advanced in quality and are available in luxurious fabrics: cotton and polyester; fibre glass; vinyl. Royal vertical blinds are affordable and sustains its quality throughout the years.

Making Pleasant  
Outdoors

## Kendry Aluminum Pergolas

Aluminum shading structure with Louvre blades roof: a perimeter gutter profile allows blade rotation and drainage of water. The system is moved by linear motors. Wind resistance is guaranteed up to class 6 as per UNI PR EN13561.

Creating the Perfect  
Ambiance

## Tensile Shade Structures

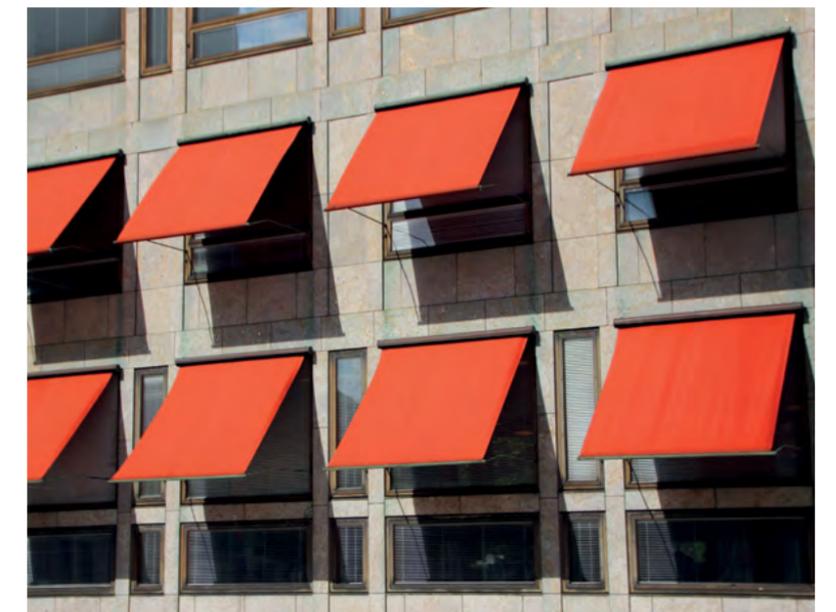

Our tensile shades are authentic tensioned fabric membrane structures, shade sails with PVC and HDPE fabrics, that are both functionally practical and aesthetically attractive. Our ready-to-install range of weatherproof or waterproof shade sails and tensile fabric structures provide a wide variety of outdoor shelter and shade solutions for schools, colleges, hotels, playground, residential backyards, and other commercial and residential applications. All of our structures are highly engineered and expertly crafted to provide years of outdoor protection from the elements.

Combining  
Performance with Style

## Awnings

This aluminum shading structures with Louvre blades roof is a popular shading solution in the UAE; a perimeter gutter profile allows blade rotation and drainage of water. The system is moved by linear motors, and the wind resistance is guaranteed up to class 6 as per UNI EN 13561. We also offer customization through different colours, sizes and projection.

Designed to be  
Weathered and not  
Withered

Covering  
the Right Spots

## Canopies

These models are built to measure according to either cardboard/crush-proof material templates, or measurement system as indicated to the side. We can provide them in different shapes, colours and sizes based on the outdoor applications.

## Screeny

Our company specializes in the design and manufacture of different kinds of window awnings. Among the range of products, there are different examples of outdoor window shades and vertical drop awnings. The awnings belonging to the SCREENY series are the result of advanced technology and Italian design, a combination that comes from a proven experience and skilful manufacture. The wide range of solar window screens allows you to choose the best solution, suitable for any architectural and environmental context.

Installing  
Relaxation

Creating Ease

## Outdoor Furniture

We are the producers of high-end furniture for hospitality, with presence in Europe, Asia and Middle East. Our main clients are upscale hotel operators, developers, procurement companies as well as top architect and interior designers. We select only the top quality and highest grades of raw materials, like A grade hard wood, A grade powder coated aluminum, fabrics from the best global producers etc.

## Umbrellas

Our umbrella structure that can create cool and dry ground coverage up to large areas. It is with permanent onsite installation with cast-in underground footing. Its major features are that it can be kept unfolded and tensioned all the year round since it is capable to withstand extremely high wind velocities at all times.
